Rick,

I have signed the Annual Inspection, attached.

In the Annual Inspection form for summary of visual observations, do we need to add a statement that all BMPs are functional and no additional action is necessary with regard to the clarity and color comments summarized?

We need to add a Port-A-John to the area behind the security office at the front gate. This is now a permanent location. So, we'll need to add it to the table in the SWPPP as well as the map.

Jeff Heffelman is out of the office until 9/22. Is that OK for plan signature?

Don't forget we need to send Sharon Allen, DEQ Water Inspector, the final copy of the revised SWPPP (and all figures, maps, etc) and the Annual SWPPP Inspection report. Sharon said CD sent to NVRO would be preferred because of file size.

Let me know if you have any questions.

Jeff,

Attached is a copy of the 2014 SWPPP text with track changes included and the 2014 Annual SWPPP Evaluation Report. Please review and have the Certification pages signed. Please send me a copy of the signed SWPPP Certification for the pdf SWPPP.

Best Regards,

Rick Woolard

Rick,

Refer to the e-mail I sent you yesterday. The e-mail verification was after we discussed that alternative last Thursday.

Jeff,

Just a friendly reminder to either send me copies of the past 12 months SWPPP inspection reports or provide me with a statement that all inspection reports were completed and whether there were any continuing issues to note. We need this summary of the inspection reports to complete the 2014 Annual SWPPP evaluation report.

Thanks,

Rick Woolard

Waiting on you to include it in the O&M.

It's on site, leaving 08/29, and back on site around 1/1/15.

Jeff,

Where are we with regards to the RO trailer?

Thanks,

Rick
